

WALLEND CARP FISHERY

Our waters have been established for over 15 years now and contain Common Carp & Mirror Carp, Rudd, Roach and Perch. The Carp were introduced around 16 years ago and breed well stocking the water with wild fish.

The season runs from the 2nd February to 26th August inclusive. The lakes are located on the Isle of Sheppey and border the Elmley bird reserve an internationally renowned area for wildlife.

Our specimen Lake is closed between 15th March - 15th June.

We intend to establish a syndicate for these waters. An application form for membership is overleaf should you be interested. We also offer day tickets at £10.00, night tickets at £10.00, 24 Hour tickets at £15.00 and 48 Hour tickets at £25.00. Children under 16 are priced at half the adult rate and must be accompanied by an adult.
